

Welcome to Reception Class

We have had a fantastic start of term in reception and the children have settled very well into their new class. We are enjoying getting to know each other!

In reception we follow the Early Years Foundation Stage Curriculum which is a play based curriculum covering seven core areas:

OVERVIEW OF EARLY YEARS FOUNDATION STAGE CURRICULUM	
<p>The curriculum covers seven areas of learning, consisting of three prime areas and four specific areas. All areas of learning and development are important and inter-connected. The curriculum also develops the three key characteristics of effective learning: playing, active learning, creating and thinking critically. These areas of learning and key characteristics are used to plan activities for the children based on their individual development, interest and learning needs. The areas of learning are delivered through a combination of planned, purposeful play, with a balance of adult-led and child-initiated independent activities, and more focused whole-class teaching sessions and small guided group work. Learning takes place both in the classroom and outdoors. Each half term topics are chosen that will develop skills and understanding in each of the seven areas.</p>	
The Prime Areas	The Early Learning Goals
Communication and language	<p>Listening and attention: children listen attentively in a range of situations. They listen to stories, accurately anticipating key events and respond to what they hear with relevant comments, questions or actions. They give their attention to what others say and respond appropriately, while engaged in another activity.</p> <p>Understanding: children follow instructions involving several ideas or actions. They answer 'how' and 'why' questions about their experiences and in response to stories or events.</p> <p>Speaking: children express themselves effectively, showing awareness of listeners' needs. They use past, present and future forms accurately when talking about events that have happened or are to happen in the future. They develop their own narratives and explanations by connecting ideas or events.</p>
Physical development	<p>Moving and handling: children show good control and coordination in large and small movements. They move confidently in a range of ways, safely negotiating space. They handle equipment and tools effectively, including pencils for writing.</p> <p>Health and self-care: children know the importance for good health of physical exercise, and a healthy diet, and talk about ways</p>

	to keep healthy and safe. They manage their own basic hygiene and personal needs successfully, including dressing and going to the toilet independently.
Personal, social and emotional development	<p>Self-confidence and self-awareness: children are confident to try new activities, and say why they like some activities more than others. They are confident to speak in a familiar group, will talk about their ideas, and will choose the resources they need for their chosen activities. They say when they do or don't need help.</p> <p>Managing feelings and behaviour: children talk about how they and others show feelings, talk about their own and others' behaviour, and its consequences, and know that some behaviour is unacceptable. They work as part of a group or class, and understand and follow the rules. They adjust their behaviour to different situations, and take changes of routine in their stride.</p> <p>Making relationships: children play co-operatively, taking turns with others. They take account of one another's ideas about how to organise their activity. They show sensitivity to others' needs and feelings, and form positive relationships with adults and other children.</p>
The Specific Areas	The Early Learning Goals
Literacy	<p>Reading: children read and understand simple sentences. They use phonic knowledge to decode regular words and read them aloud accurately. They also read some common irregular words. They demonstrate understanding when talking with others about what they have read.</p> <p>Writing: children use their phonic knowledge to write words in ways which match their spoken sounds. They also write some irregular common words. They write simple sentences which can be read by themselves and others. Some words are spelt correctly and others are phonetically plausible.</p>
Mathematics	<p>Numbers: children count reliably with numbers from 1 to 20, place them in order and say which number is one more or one less than a given number. Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer. They solve problems, including doubling, halving and sharing.</p> <p>Shape, space and measures: children use everyday language to talk about size, weight, capacity, position, distance, time and money to compare quantities and objects and to solve problems. They recognise, create and describe patterns. They explore characteristics of everyday objects and shapes and use</p>

	mathematical language to describe them.
Understanding the world	<p>People and communities: children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.</p> <p>The world: children know about similarities and differences in relation to places, objects, materials and living things. They talk about the features of their own immediate environment and how environments might vary from one another. They make observations of animals and plants and explain why some things occur, and talk about changes.</p> <p>Technology: children recognise that a range of technology is used in places such as homes and schools. They select and use technology for particular purposes.</p>
Expressive arts and design	<p>Exploring and using media and materials: children sing songs, make music and dance, and experiment with ways of changing them. They safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function</p> <p>.</p> <p>Being imaginative: children use what they have learnt about media and materials in original ways, thinking about uses and purposes. They represent their own ideas, thoughts and feelings through design and technology, art, music, dance, role-play and stories.</p>

At the beginning of the autumn term we assess the children and find out what they can do in order to inform our planning. As part of the Early Years Foundation Stage curriculum, learning in Reception Class is tailored to the children's interests and ideas. Therefore we would welcome any information about your child's latest favourite thing! This information helps us to plan activities and enhancements that are enjoyable for your child, thus motivating children to learn and making their learning more personal. Our RE topics this half term are:

- *Myself - God knows and loves each one*
- *Judaism Hanukkah*
- *Welcome - Baptism: a welcome to God's family*

Important Information:

Stay and play

Forming strong relationships with parents is crucial to your child's development. We welcome parents into class once a half term to see them working, what they like to do at school and to chat to members of staff. The sessions are very informal and flexible, please let us know if any appointments are inconvenient and we will rearrange them.

'Wow' slips

Parents record any 'wow' moments that their child does at home. Your child brings the slips into school to share their achievements with staff and children.
